

HANDY MAGNA MP-A2L MAGNETIC PARTICLE TESTER

Strong and light, this versatile magnetic yoke has created a new benchmark in Magnetic Particle Testing. Featuring an LED work-light (operated through the magnetic field), this yoke ensures high visibility of the work area regardless of the ambient light conditions.

The unit weighs in at only 2.8kg, making it especially convenient in rope access and other difficult work areas. The Handy Magna MP-A2L is 240 Volt and runs on AC power supply. The light attachment means it is very useful in low-light work environments.

Specifications:

Power Supply:	220V 50-60Hz
Current Draw:	2.8A
Lifting Power:	Over 5.44Kg
Lamp:	LED
Weight:	3.2Kg
Dimensions:	194mm (L) x 48mm (W) x 186mm (H)

Configuration:

MP-A2L 220V AC Yoke:	1
Manual:	1
Certification:	1
